

AVATech Expert Workshop

16-17 November 2010, MPI Nijmegen

After Wolfgang Klein has set the scene the workshop will have three sessions:

- in the first session the AVATech partners will report about their work and plans
- in the second session researchers will describe their needs and wishes that go beyond what has already been done or is planned in AVATech
- in the third session experts from the audio/video processing field will describe the state of the art to indicate what seems to be possible and to respond on the researchers wishes

Tuesday 16 November 2010		
11:00	Wolfgang Klein	Welcome and Introduction
11:30	Rolf Bardeli, Sebastian Tschöpel	State of Automatic Audio Analysis
12:15	Stefano Masneri	State of Automatic Video Analysis
13:00	<i>Lunch</i>	
13:45	Han Sloetjes, Eric Auer	Detectors and Integration Work
14:30	Przemek Lenkiewicz	Work in the CLARA Context
14:50	Peter Wittenburg	Discussion
15:30	<i>Coffee</i>	
16:00	Hedda Lausberg	Current problems in behavioural gesture research
16:30	Aslı Özyürek	Wishes from Gesture Research
17:00	Jeremy Hammond	Fieldwork: Sites, Sound and Workflow
17:30	Mark Dingemans	Linguistic Research and Fieldwork: what researchers want
18:00	<i>End</i>	
19:00	<i>Dinner</i>	

Wednesday 17 November 2010		
09:00	Meinard Müller	State-of-the-art in Music Information Retrieval
09:35	Lou Boves	Audio State of the Art
10:10	Ioannis Patras	Spotting Human Actions in Unsegmented Image Sequences
10:45	<i>Coffee</i>	
11:00	Josep Casas	How can body motion capture and gesture analysis help in the annotation of large video datasets
11:35	Peter Wittenburg, Oliver Schreer, Daniel Schneider	Wrap Up
12:30	<i>End</i>
